

Goes where the job is

Heavy duty.
Manual and user-friendly.
Now battery operated:
ProCut

MADE FOR REAL[®]

Superior ergonomics. Game-changing productivity.
From the industry's tool leader.

Reduces worker strain

Saves time

Ties from T50s to T250s

Meet ProCut – our battery-powered, heavy duty cable tie application tool

Allowing users to move freely with no strings, cords, or hoses attached for enhanced safety and productivity on the job. With reduced operator hand strain and repetitive motion injuries. It is equipped with a one-touch electronic trigger and a rear-mounted second trigger for spaces hard to reach.

Capable of processing ties ranging from T50s to T250s. Paired with a 2.0 Ah CAS battery – the one compatible with a wide range of industrial tools, like our AT CPK hybrid.

ProCut Tool: 1,15 kg
ProCut Tool and battery: 1,54 kg

Battery-powered tool for tensioning and cutting cable ties

ProCut
